Sean Chance, Central Campus Principal

January 9, 2018

Dear Parents and Guardians,

Please review the attached changes to our Service Hours Policy:

Effective as of January 9, 2018, the policy is being changed at the direction of the Broward County School District to comply with Florida Department of Education requirements. Monetary donations will no longer count towards a family's service hour requirement. Any hours previously documented will remain as completed.

We understand that parent involvement is an essential aspect of what makes our schools great and we encourage parents to continue to actively participate in their child's education by providing time and resources.

Please see our attached policy for further clarification. If you have any questions, please contact your school for more information on parent volunteer opportunities that are available for service hours.

Thank you for your continued support!
